Docket No.: 10005680-1

Title: DOCUMENT DISTRIBUTION SYSTEM AND METHOD WITH CONSOLIDATED DOCUMENT SERVICES MANAGEMENT

IN THE CLAIMS

Please cancel claims 2 and 22 without prejudice.

Please amend claims 1, 3-8, 19-21, and 23-26 as follows:

- Sub B1
1. (Currently Amended) A method of distributing a document of a user, the method comprising the steps of:
- registering document distribution services of a plurality of document distribution providers with a document distribution system controller;
 - receiving a distribution request for the document from the user at the document distribution system controller;
 - compiling a list of distribution options for the document with the document distribution system controller based on the document distribution services of the document distribution providers; and
 - presenting the list of distribution options for the document to the user.
2. (Cancelled)
3. (Currently Amended) The method of claim 21, further comprising the step of:
- linking the user and the document distribution system controller via a communication network, wherein the step of receiving the distribution request includes receiving the distribution request for the document from the user via the communication network, and wherein the step of presenting the list includes presenting the list of distribution options for the document to the user via the communication network.
4. (Currently Amended) The method of claim 1, further comprising the step of:
- receiving a distribution selection for the document from the user, the distribution selection including at least one distribution option from the list of distribution options.
5. (Currently Amended) The method of claim 4, further comprising the steps of:
- receiving a data file for the document from the user; and
- AX

Title: DOCUMENT DISTRIBUTION SYSTEM AND METHOD WITH CONSOLIDATED DOCUMENT SERVICES MANAGEMENT

distributing the data file for the document to at least one of the document distribution providers offering the at least one distribution option.

6. (Currently Amended) The method of claim 5, further comprising the step of: linking the user and the document distribution providers via a communication network, wherein the step of receiving the distribution selection includes receiving the distribution selection for the document from the user via the communication network, wherein the step of receiving the data file includes receiving the data file for the document from the user via the communication network, and wherein the step of distributing the data file includes distributing the data file for the document to the at least one of the document distribution providers via the communication network.
7. (Currently Amended) The method of claim 5, further comprising the step of: converting the data file for the document to a predetermined file format.
8. (Currently Amended) The method of claim 1, wherein the step of registering the document distribution services includes registering at least one of print services, electronic mail services, and publishing services.
9. (Original) A computer-readable medium having computer-executable instructions for performing a method of distributing a document of a user, the method comprising: registering document distribution services of a plurality of document distribution providers; receiving a distribution request for the document from the user; compiling a list of distribution options for the document based on the document distribution services of the document distribution providers; and presenting the list of distribution options for the document to the user.
10. (Original) A system for distributing a document of a user, the system comprising:

Title: DOCUMENT DISTRIBUTION SYSTEM AND METHOD WITH CONSOLIDATED DOCUMENT SERVICES MANAGEMENT

a memory device configured to have document distribution services of a plurality of document distribution providers stored therein; and

a processor adapted to compile a list of distribution options for the document based on the document distribution services of the document distribution providers.

11. (Original) The system of claim 10, further comprising:

a user interface configured to present the list of distribution options for the document to the user.

12. (Original) The system of claim 10, wherein the memory device and the processor are included in a document distribution system controller, wherein the document distribution system controller is adapted to receive a distribution request for the document from the user and present the list of distribution options for the document to the user.

13. (Original) The system of claim 12, further comprising:

a communication network configured to link the document distribution system controller and the user, wherein the document distribution system controller is adapted to receive the distribution request for the document from the user via the communication network and present the list of distribution options for the document to the user via the communication network.

14. (Original) The system of claim 12, wherein the document distribution system controller is adapted to receive a distribution selection for the document from the user, the distribution selection including at least one distribution option from the list of distribution options for the document.

15. (Original) The system of claim 14, wherein the document distribution system controller is adapted to receive a data file for the document from the user and distribute the data file for the document to at least one of the document distribution providers offering the at least one distribution option.

Title: DOCUMENT DISTRIBUTION SYSTEM AND METHOD WITH CONSOLIDATED DOCUMENT SERVICES MANAGEMENT

16. (Original) The system of claim 15, wherein the document distribution system controller is adapted to convert the data file to a predetermined file format.
17. (Original) The system of claim 15, further comprising:
a communication network configured to link the document distribution system controller, the user, and the document distribution providers, wherein the document distribution system controller is adapted to receive the data file for the document from the user via the communication network and distribute the data file for the document to the at least one of the document distribution providers via the communication network.
18. (Original) The system of claim 10, wherein the document distribution services of the document distribution providers include at least one of print services, electronic mail services, and publishing services.
19. (Currently Amended) A method of managing document distribution services of a plurality of document distribution providers, the method comprising the steps of:
registering the document distribution services of the document distribution providers with a document distribution system controller;
presenting the document distribution services to a user having a document; and
receiving a distribution selection for the document from the user at the document distribution system controller, the distribution selection specifying at least one document distribution service of the document distribution services.
20. (Currently Amended) The method of claim 19, wherein the step of registering the document distribution services includes registering at least one of print services, electronic mail services, and publishing services.
21. (Currently Amended) The method of claim 19, wherein the step of presenting the document distribution services includes compiling a list of distribution options for the

document based on the document distribution services and presenting the list of distribution options for the document to the user.

22. (Cancelled)

23. (Currently Amended) The method of claim ~~22~~19, further comprising the step of: linking the document distribution providers and the document distribution system controller via a communication network, wherein the step of registering the document distribution services includes registering the document distribution services with the document distribution system controller via the communication network.

24. (Currently Amended) The method of claim ~~22~~19, further comprising the step of: managing the document distribution services at the document distribution system controller, including receiving a management instruction for the document distribution services at the document distribution system controller.

25. (Currently Amended) The method of claim 24, further comprising the step of: linking a system administrator and the document distribution system controller via a communication network, wherein receiving the management instruction includes receiving the management instruction for the document distribution services at the document distribution system controller from the system administrator via the communication network.

26. (Currently Amended) A computer-readable medium having computer-executable instructions for performing a method of managing document distribution services of a plurality of document distribution providers, the method comprising:
registering the document distribution services of the document distribution providers;
presenting the document distribution services to a user having a document; and
receiving a distribution selection for the document from the user, the distribution selection specifying at least one document distribution service of the document distribution services.

Title: DOCUMENT DISTRIBUTION SYSTEM AND METHOD WITH CONSOLIDATED DOCUMENT SERVICES MANAGEMENT

27. (Original) A system for managing document distribution services, the system comprising:

a document distribution system controller configured to have the document distribution services registered therewith,

wherein the document distribution system controller is adapted to present the document distribution services to a user having a document and receive a distribution selection for the document from the user, the distribution selection specifying at least one document distribution service of the document distribution services.

28. (Original) The system of claim 27, wherein the document distribution services include at least one of print services, electronic mail services, and publishing services.

29. (Original) The system of claim 27, wherein the document distribution system controller is adapted to receive a management instruction for the document distribution services from a system administrator.

30. (Original) The system of claim 29, further comprising:
a communication network configured to link the document distribution system controller and the system administrator, wherein the document distribution system controller is adapted to receive the management instruction from the system administrator via the communication network.
